

Bio: Olivia is a senior in high school who is applying to the University of South Carolina. As the daughter of a single mom, finances are important to her. She has worked at Starbucks throughout high school to save up for college. She wants to use AskCocky to research how her income will affect her eligibility for a Pell Grant.

Scenario: Olivia researches Pell Grants and student income on AskCocky.

Bio: Kelsey is a current sophomore who spent her senior year of high school applying to prestigious colleges instead of applying to scholarships. She didn't get into any of her reach schools and ended up committing to USC. When she committed to USC, she realized she would be taking on a lot of student debt. She is looking for scholarship opportunities now.

Scenario: Kelsey researches merit scholarships for current students using AskCocky.

Graduating student: Sarah is graduating from Civil Engineering this spring. She took on some small loans to pay for her Honors College and CEC fees. She wants to learn more about how paying back debt after graduation works.

Scenario: Sarah researches paying back debt on AskCocky.
